RESPONSE TO NOTICE TO FILE MISSING PARTS

Sir:

In response to the February 15, 2005 Notice to File Missing Parts of

Nonprovisional Application in connection with the above-identified patent application, applicant encloses herewith:

1. A copy of the Notice to File Missing Parts;
2. An executed Japanese/English Language Declaration (resubmission); and
3. Submission of Replacement Drawings (6 sheets).

Please note that the drawings for Figs. 7A-C are described in paragraph [45] of the specification as "FIG. 7C shows the thickness of the decorated board being 3.0 mm and the image is entirely cloudy. In a case of FIG. 7B the thickness of the decorated board is 2.0 mm and a cloudy image can be observed from the center of the image to the upper region of the image. In a case of FIG. 7A the thickness of the decorated board is 1.0 mm and a cloudy image

cannot be observed; therefore, it can be understood that the images are the same, regardless to whether or not the flash light is emitted. The same result is obtained in a case in which a polycarbonate decorated board having 0.8 mm thickness, which is not shown in the drawing is used." Therefore, the drawings for Fig. 7A-C may be too light or too dark.

No fee is believed to be due. However, if there is a fee due, the Commissioner is hereby authorized to charge any additional fees which may be required for filing this document, to Deposit Account No. 50-0675, Order No. **848075/0075**.

A duplicate copy of this Response is enclosed.
